

John Wallingford Retained by Medolac Laboratories as Worldwide Regulatory Affairs Advisor

Dr. Wallingford's expertise will help position Medolac Laboratories as a leader in innovative nutritional products for neonatal clinical settings

LAKE OSWEGO, Ore., April 9, 2014 /PRNewswire-iReach/ — Medolac Laboratories is pleased to announce that John Wallingford, PhD has joined Medolac Laboratories as its lead regulatory affairs advisor. Dr. Wallingford brings a wealth of worldwide regulatory expertise and scientific acumen in key areas relating to foods for special dietary uses including neonatal pediatric nutrition.

Elena Medo, CEO of Medolac Laboratories, stated, "We are thrilled that Dr. Wallingford has accepted an advisory role with the company. The wealth of knowledge that he brings will be key to the successful introduction of our full suite of human milk products for hospitalized preterm infants." Dr. Wallingford added, "Medolac is uniquely positioned to advance access to adapted human milk nutrition in clinical settings and I am pleased to be a part of those efforts."

Dr. Wallingford's distinguished career includes the U.S. Food and Drug Administration (FDA) in the Office of Special Nutritionals, regulating the composition and claims on foods for special medical purposes, general principles for health claims, and he has authored the review of the health claim for omega-3 fatty acids and coronary heart disease. After 10 years at the FDA he joined Wyeth Nutrition in the research arena. Shortly thereafter he joined the global regulatory affairs group, becoming VP for Government and Regulatory Affairs. Following the acquisition of Wyeth by Pfizer in 2009, he was the VP for Scientific Affairs, Pfizer Nutrition until retirement in 2011.

Medolac Laboratories develops and commercializes innovative, human donor milk products for clinical use, applying proprietary biopharmaceutical processing methods that preserve the immune components in human milk. Medolac Laboratories is a Delaware registered corporation headquartered at Lake Oswego, Oregon in the Pacific Northwest of the United States.
